Welcome to **Wonders At Home Online Summer Program** by Studentdesk Integrated Montessori School.

**We understand that this transition to distance learning may not be simple or easy for everyone.**

We acknowledge that most parents, if not all, are **managing multiple responsibilities** while also doing their best to provide incredible support to their child(ren). Some parents are caring for elderly parents and young children, and many are working from home. We want you to know that we do not intend to place additional burden on your family during these challenging times.

It is also important to bear in mind that with distance learning, **we are not to trying to recreate face-to-face (F2F) learning**, which is impossible to do. Rather, we are all trying our best to rise to the occasion by maximizing the use of technology to continually **meet the learning needs of our learners.**

Let us continue **supporting one another** as we navigate uncharted waters and explore innovative ways to educate our learners. As a key stakeholder in your child's development, your engagement with your child can play a crucial role during these times.
